Abhilash reddy

SOFTWARE DEVELOPER

Profile

Software developer with more than 1 year of experience working in latest 5G technology. Currently employed as an devloper at Tata Consultancy Services(TCS).My job profile includes requirement analysis, coding, Code debugging,DSA application. Looking for better opportunities to enhance my skills as well as professional growth, so to achieve the same I have started to explore a new path which is "Full stack Web development".From this learning experience ,I got to acquire firm knowledge on javascript,React.js ,Express.js framework,node.js environment. I also have a working experience on C,Python programming languages.
